SUMMARY

Computer Science graduate with practical experience in full-stack Java development using React.js, Spring Boot, and MySQL. Successfully developed academic and personal projects featuring CRUD operations and RESTful API integration. Eager to contribute to modern web development teams.

SKILLS

- **Programming Languages:** Java, C, Python
- **Backend Technologies:** Spring Boot, Hibernate
- **Frontend Technologies:** HTML, CSS, React.js
- **Database:** MySQL, MongoDB
- **Tools & Technologies:** Git, GitHub, Maven, Postman, Visual Studio Code, IntelliJ IDEA
- **Core Concepts:** Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), Computer Networks

PROJECTS

Project 1: An Efficient Ciphertext Index Retrieval Scheme Based on Edge Computing

Tech Stack: Java, J2EE (JSP, Servlets), MySQL | Cloud & Edge Computing | Cybersecurity & Searchable Encryption | Game Theory

Developed a Java/J2EE edge computing application with secure searchable encryption for encrypted data retrieval. Implemented trapdoor-based keyword generation and distributed edge caching to improve security and performance. Reduced backbone network traffic by ~80% and query latency by ~30% using cooperative edge communication, local processing, and optimized cache placement strategies.

Project 2: Web-Based Graphical Password Authentication

Tech Stack: HTML, CSS, JavaScript

Developed a web-based graphical password authentication system with an interactive user interface. Implemented secure login functionality using image-based tap points and gesture-based authentication. Enhanced application security through validation mechanisms that prevented unauthorized access and reduced brute-force attack risks, improving overall user authentication reliability and usability in secure web environments.

Internship

AI Image Annotation Intern

- Annotated and labeled image datasets for AI/ML model training.
- Tagged objects and scenes to improve computer vision model accuracy.
- Conducted quality checks to maintain dataset consistency.

ACHIEVEMENTS

- Completed **NPTEL Online Certification “Demystifying Networks”** (2022) with 54%, covering networking fundamentals, OSI model, TCP/IP, and routing protocols.
- Completed **NPTEL Online Certification “Problem Solving through Programming in C”** (2021) with 99%, gaining expertise in C programming, algorithms, and problem-solving techniques.
- Completed **TCS iON Career Edge – Young Professional Program** (2023), enhancing professional skills and industry readiness.
- Earned **Hacker Rank badges**: Java (Silver) and Python (silver), demonstrating programming proficiency and problem-solving skills.
- Created **50 designs using Canva**, demonstrating creativity, design skills, and content visualization.
- Earned **Code Chef Problem Solver (Bronze) badge**, demonstrating algorithmic problem-solving and competitive programming skills.

EDUCATION

Malla Reddy College of Engineering for Women, Hyderabad	2019–2023
Bachelor of Technology (B.Tech), Computer Science & Engineering CGPA: 7.35/10	
TSWREIS, Karimnagar	2017–2019
Intermediate (MPC) percentage: 81.9	
Ravindra Model High School, Mancherla	2016 -2017
SSC (10th class) CGPA: 8.7
